Preacher Jean Claude Augustin

We have the vision for the school and the church, We would like the school to become a bigger school and we are fighting for that, in the area there are about 20 schools but we are the third largest school but because of our economic meltdown This means that we can change the yearly proficiency and the good one for the school but we donate \$ 750 and the cow to the professors is really a catastrophe Teachers are constantly asking for wage increases and life is coming out here in Haiti and we pray to God for a change in the school and we still pray for the Paste Daniel And his family and all his churches a way to cast God's blessing. about them and providing more support to Haiti in those moments, I am just giving myself a way to have a church with a stronger school

I have to integrate my son to his / her homework help in classing the classroom study from 7h30 to 12h30 so that the school can be more dynamic and needs an economic support to attend university after school. We want to continue with English courses in the school it will be very good for children especially from 2 to 6 years

If you would like us to realize that this would be very good for us

The water pipeline has a small problem during some weeks of severe swelling only when the water is rising

For Church programs we have a program loaded

Sunday morning 8h-11h30
Great service of adoration and loyalty

DIMANCHE SWA 5h-6h
Service of devotion

Tuesday 5h - 6h30 Pm
